

LET YOUR WORK TO BE WORSHIP

AS FOR ENGINEERS, WEAPONS' MAKERS AND PEOPLE OF THESE SCIENCES AND SPECIALITIES:

They should fulfill the practical side mentioned in Qur'an, The Lord of the worlds says:

"And make ready against them (enemies) all you can of power, (including steeds of war tanks, planes, missiles, artillery, etc.)" 8-60

But we say to our enemies: Give us weapons, special tanks and planes. Do we prepare for them all we can of power as Allah orders us? No. They only give us small amounts, and they only give us if we follow their policies among nations, but if these inventions are ours and we fulfill what is in the book of our Lord and discovered what Allah prepared for us, no one could dare to face us.
