

THE WAY TO ACTUAL WORSHIP

Allah says:

"Verily, those who say: Our Lord is Allah (Alone), and then they Istakamu (follow the right path)" 41-30

The first good omens and the first grants for them from God is that angels come down to sit with them, talk to them, entertain them and be friendly with them, this is for those who said: "Our Lord is Allah" and they follow the right path.

(Say: Our Lord is Allah), means that they come altogether outwardly and inwardly to Allah and announced that they only seek Allah's satisfaction in this life, all their statuses, deeds and sayings are for getting Allah's satisfaction and his bounties by granting their hearts to get what they wish, that is to see the face of Allah. Those people, whom we call (Righteous people) and those who truthfully follow them, have a divine way in which they follow the noble prophet (May the blessings and peace of Allah be upon him). This way is nearly the same according to all righteous and pious people from the time of the messenger of Allah to the present time:

- Their beginning is Koran.
- The first thing they do is to study and understand the legislation of the moderate religion according to Koran and Sunna.
- After that, they follow a method under the leadership of a pure and sincere Sheikh appointed by Allah to lead those who want these high degrees in order to purify their souls, clear their hearts and reach their goals.

Then Allah grants them gifted bounties, knowledge bounties, revelation bounties, bounties from Allah and luminous bounties, they are countless bounties granted by Allah to the people of these degrees.
